International Symposium on Lignocellulosic Materials-Intsympligncellmat 2017 - A WCCE10 Joint Event

This event is promoted by RIADICYP (Iberoamerican Network for Research on Pulp and Paper) and PROVAILOR-Cyted (Value Added Products from Agricultural and Forestry Industry Residues Network). All international and regional events related to lignocellulosic biomass and bioenergy research and development held in the last three years, are invited to join the International Symposium on Lignocellulosic Materials under the overarching theme of the 10th WCCE.

The International Symposium on Lignocellulosic Materials will provide a platform to critically review our recent progress, design innovative strategies for future advancements, and exchange multidisciplinary information and experience acquired at all levels of lignocellulose research and development. IntSymplignCellMat 2017 aims to stimulate fruitful discussions on a wide range of topics in all the biomass-related areas including but not limited to biosynthesis and deconstruction of lignocellulosic biomass, biopolymers and natural adhesives, thermochemical and biological conversion, new molecules, composites, advanced and smart paper-based materials, process integration, socio-economic impact analysis of products and processes. The conference will set the stage to critically analyze biorefining production platforms for building block chemicals, complex materials, value-added products and underutilized byproducts from biomass. Opportunities will arise to accelerate scientific discovery and help promote, advance and disseminate new knowledge in all aspects of Lignocellulosic Biorefineries.

Coordinators & Scientific Committee

Song Won Park, Chair. *U. Sao Paulo*, (BR)

Juan Carlos Villar. *INIA*, (ES)

Lew Paul Christopher. *Lakehead U. - BRI*, (CA)

Maria Cristina Area. *UNaM*, (AR)

Call for Abstracts now open

International Symposium on Lignocellulosic Materials-Intsympligncellmat 2017 *A WCCE10 Joint Event*

■ Topics

This symposium will cover the following topics.

- Biosynthesis and Deconstruction of Lignocellulosic Biomass
- Advanced Analytical Techniques for Lignocellulose Characterization
- Biochemical and Thermochemical Conversion of Lignocellulosic Biomass
- Biofuels and Value-Added Biochemicals from Lignocellulosic Biomass
- Biopolymers, Biocomposites and Bioadhesives from Lignocellulosic Biomass
- Recycling and Reuse of Lignocellulosic Materials
- Breakthrough Technologies for Paper and Fiber Based Materials
- New Products with Unique Functionalities from Cellulose, Lignin and Hemicellulose
- Lignocellulosic Biorefineries – Process and Product Integration
- Lignocellulosic Biorefineries – Valorization of Waste Streams
- Lignocellulosic Biorefineries - Environmental and Socioeconomic Considerations

■ Abstract Submission

Abstracts should be submitted using the **“Online Submission”** section in our **Web site** that will be **open** in **September 2016**

VERY IMPORTANT NOTE:

Please take note that it's **absolutely necessary** to make the **Pre-registration** in order to **obtain the “password” and “user”** before to submit your abstract.

Please **follow this link** to make the Pre-registration to the congress or submit your abstract online:
<http://www.wcce10.org/index.php/abstracts/guidelines>

Important dates

ABSTRACT SUBMISSION

- Deadline for abstract submission: **30th January, 2017**
- Evaluation period: **March - May, 2017**
- Author notification (abstract acceptance): **30th May 2017**

PROGRAM

- Preliminary Program (online): **30th June , 2017**
- Final Programme (online): **1st September, 2017**

REGISTRATION

- Early Bird Registration deadline: **30th June, 2017**
- Regular Registration deadline: **1st September, 2017**
- Late Registration deadline: **20th September, 2017**

ACCOMMODATION

- Deadline accommodation: **September 1st, 2017**

WCCE10+ECCE11+ECAB4 Congress:

- **1st - 5th October, 2017**
